

Western Pennsylvania Phone Traffic Net

Preamble and Sequence

1 JUL 2021

Preamble

Calling the Western Pennsylvania Phone Traffic Net. Calling the Western Pennsylvania Phone Traffic Net. This is _____, Net Control. My name is _____, my location is _____.

The WPAPT meets daily on this frequency, 3918 kilohertz, at 2200 zulu for the purpose of handling formal Radiogram traffic into, out of and throughout the ARRL Western Pennsylvania Section. We are a Section Level Net affiliated with the National Traffic System. All stations are welcome and invited to participate, regardless of location or affiliation.

This is a directed net. STATIONS SHOULD NOT TRANSMIT UNTIL DIRECTED TO BY NET CONTROL. Stations are requested to check in with their call signs, using phonetics, and indicate whether they can take traffic and if they have traffic.

Stations with emergency or priority traffic may interrupt the net with a double break or the word "emergency" at any time.

Traffic requests

The net will now stand by for any Emergency or Priority traffic. Stations with Emergency or Priority traffic **only**. (*Pause, check for relays.*)

Are there any reps from Third Region Nets? (*Take list of traffic.*)

Is there anyone going to CW?

Are there any reps from other NTS nets? (*Take list of traffic.*)

District callups

This is the Western PA Phone Traffic Net, listing traffic for: (*read traffic list*).

(*Each day, begin with the designated District for that date in the blank. After traffic has been passed, repeat this section, with the updated list, for the next district in this list: **Northwest, Northeast, Southwest and Southeast Districts.***)

Stations in the _____ District with traffic please check in with your call and location. (*Pause, check for relays. Add new traffic to the list. Direct stations who can take listed traffic to contact the listing station.*)

Any additional stations in the _____ District, with or without traffic please check in now.

(*Continued, page 2*)

Repeat for each District

Additional traffic and net business

(After the list has been cleared:)

This is the Western PA Phone Traffic Net, _____, Net Control. Are there any stations anywhere, with or without traffic or announcements for the net? *(Pause, check for relays. Add new traffic to the list. Direct stations who can take listed traffic to contact the listing station.)*

Net Closing

(NCS now calls the net manager and sends the net report for the day.)

This concludes the regularly scheduled session of the Western Pennsylvania Phone Traffic Net. We thank all stations that participated, and also our fellow radio amateurs for allowing us the use of a clear frequency. We will go back through the list of checkins for comments after the net closes

Your NCS tomorrow will be _____. Any comments or suggestions should be directed to K3MIY or KB3IN, Western PA Section Traffic Manager.

The net is now closed, and we return the frequency for licensed amateur use.

73, this is _____, out.
