

Western Pennsylvania Phone Traffic Net

Preamble and Sequence

24 September 2021

Preamble

Calling the Western Pennsylvania Phone Traffic Net. Calling the Western Pennsylvania Phone Traffic Net. This is _____, Net Control. My name is _____, my location is_____.

The WPAPT meets daily at 5:30 PM local time on this frequency 3918 kilohertz, with a backup frequency of 3913 kilohertz, for the purpose of handling formal Radiogram traffic into, out of and throughout the ARRL Western Pennsylvania Section. We are a Section Level Net affiliated with the National Traffic System. All stations are welcome and invited to participate, regardless of location or affiliation.

This is a directed net. STATIONS SHOULD NOT TRANSMIT UNTIL DIRECTED TO BY NET CONTROL. Stations are requested to check in with their call signs, using phonetics, and indicate whether they have traffic or can take traffic.

Stations with emergency or priority traffic may interrupt the net with a double break or the word "emergency" at any time.

Traffic requests

The net will now stand by for any Emergency, Priority or time valued traffic. Stations with Emergency, Priority or time valued traffic **only**. (*Pause, check for relays.*)

Are there any reps from Third Region Nets, voice or digital? Any reps going to Third Region Nets, voice or digital?

Any reps from CW nets? Any reps going to CW nets?

Are there any reps from any other nets?

We will now take check-ins from stations with traffic and traffic only. Call net control.

District call up

*(Each day, begin with the designated District for that date in the blank. After traffic has been passed, repeat this section, with the updated list, for the next district in this list: **Northwest, Northeast, Southwest and Southeast Districts.**)*

This is the Western PA Phone Traffic Net, listing traffic for: (*read traffic list*).

Stations in the _____ District with or without traffic please check in with your call and location. (*Pause, check for relays. Add new traffic to the list. Direct stations who can take listed traffic to contact the listing station.*)

Any additional stations in any District, with or without traffic please check in now.

(Continued, page 2)

Additional traffic and net business

(After the list has been cleared:)

This is the Western PA Phone Traffic Net, _____, Net Control. Are there any stations anywhere, with or without traffic or announcements for the net? *(Pause, check for relays.)* We will now go back through the list of check-ins for comments.

Net Closing

This concludes the regularly scheduled session of the Western Pennsylvania Phone Traffic Net. We thank all stations that participated, and also our fellow radio amateurs for allowing us the use of a clear frequency.

Your NCS tomorrow will be _____. Any comments or suggestions should be directed to K3MIY net manager or KB3IN, Western PA Section Traffic Manager

(NCS will now call net manager and send net report)

The net is now closed, and we return the frequency for licensed amateur use. 73, this is _____, out.
